CCDC Inject

INJECT NAME	Network Inventory Management Report
INJECT ID	BCOM01T

INJECT DESCRIPTION:
Create a network inventory report for management. The report should be tabular and describe each device together with:

- It's function (server/application, firewall, switch, router etc…)
- IP address
- MAC address
- Operating Software and version
- Are there known vulnerabilities with this version
- Recommended upgrades, if any

INJECT DELIVERABLE
A business memo that describes what the memo is about, and the presentation of the tabular information.
