CCDC Inject

INJECT NAME	Incident Report Explanation
INJECT ID	BCOM07T

INJECT DESCRIPTION:
Use a recent Red Team incident and develop a business memo that will explain this report to a non-technical management audience. Be sure to explain what vulnerability was exploited, and the nature of the risk. For example, the attack might have put the organization at risk of a data breach, or a service availability outage (denial of service), among others. Include information on how the team can mitigate this attack in the future.

INJECT DELIVERABLE
Develop a business memo that can be used in a presentation to a non-technical business management audience.
